## **DeMARK® THE COMPANY**

DeMARK was founded in 1984. In addition to grounding products, the Company provides extensive contract machining services through their millhouse turning and milling operations. Customers include automotive, trucking, plumbing, as well as electrical. DeMARK private labels finished products for certain companies in the utility business. DeMARK manufactures and designs all its own products. DeMARK pioneered a number of grounding products including threadless couplers, Drive Bits with the Integrity Chamber®, Drive-On Copperhead®, “Slider” and “T Connectors” for Ground Rod to Ground Wire connections.
